# Luxury is Evolving

Traditional glass + plastic packaging drives majority of **product waste**

The Global fragrance market is **shifting toward sustainable** luxury. Eco-conscious purchasing is rising year-over-year.

Luxury must reduce **excess** while maintaining **prestige**.

Consumers are demanding **personalization** and **immersive** brand experiences

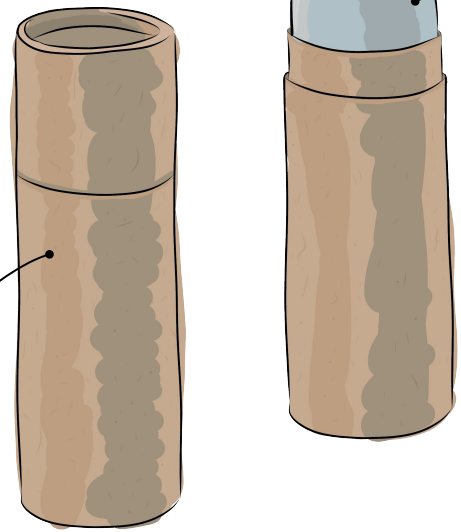

# The Sustainable Perfume Bar

Cruelty-free, plant-derived formulation (aligned with L'Oréal **sustainability** commitments)

Solid **wax-based** fragrance concentrate (higher longevity, no aerosol loss)

**Modular** manufacturing adaptable across L'Oréal Luxe brands

**Compostable** kraft paper push-up tube (inspired by zero-waste lip balm packaging)

Optional refillable aluminum luxury case for **premium tier**

Luxury without excess. Experience without compromise.

# Luxury Becomes Immersive

VR scent **storytelling** mapped to fragrance notes

**Differentiated** retail model across Luxe division

Emotional **pre-purchase experience** (reduces physical sampling waste)

## Pilot Success Metrics

≥30% packaging reduction per unit

≥25% refill repurchase rate

≥15% VR-to-purchase conversion lift
